

Job Description

Position: Plant Fitter, Blasting and Coatings

Location: Barrow-in-Furness

Job type: Full time

Salary: Competitive

Overview of the role

The Plant Fitter is responsible for the maintenance of all site plant and equipment and ensuring all maintenance records are kept up-to-date. The role of the Plant Fitter is also to develop maintenance schedules, ensuring equipment is maintained to manufacturers' agreed maintenance and servicing requirements and the legal requirements under 'Provision and Use of Work Equipment' regulations.

Role responsibilities

The following outlines the primary responsibilities and duties of the role:

- Repair and maintenance of all site plant and equipment
- Maintaining records relating to maintenance of site equipment
- Overseeing and ensuring the safe operation of onsite blasting/paint equipment
- Assisting with commissioning new equipment
- Assisting management with maintaining the site's ISO certification
- Undertaking scheduled PUWER assessments for all equipment
- Ensuring preventative maintenance is carried out

Accountability

The Plant Fitter reports directly to the nominated project Operations Manager on a daily basis and works closely with the Company Asset Manager to ensure all plant and equipment is maintained to agreed maintenance schedules, and all plant and equipment operates safely. The role also interfaces with:

- Paint Operations Director
- Discipline Supervisors
- QC Inspectors
- Administrators
- Stores / Plant Engineers
- Painters
- Blasters

Profile

The successful candidate will be able to demonstrate the following:

- Proven experience working as a plant mechanic/fitter in a fast-paced environment
- Relevant mechanical engineering qualification or time served is essential
- Sound and current knowledge of heavy plant machinery maintenance
- Strong attention to detail and accuracy with the ability to work effectively under pressure
- Good verbal communication skills
- Flexible approach to working hours
- Experience of hydraulic and electrical systems
- Ability to work as part of a team
- The ability to organise work on his or her initiative and work under pressure
- Awareness and understanding of health and safety requirements
